Telephone say interesting news

The Atlantic and Pacific oceans are now connected. President Wilson blew up several thousand charges of dynamite by touching an electric button eighteen hundred miles away, and the dam was blown to atoms letting the two oceans to gether.

Mrs. L. Starks is the Raymond candidate for the Lethbridge Herald prize contest. She has good support and is out to win.

FOR SALE — 50 acres of irrigable land, \$27.50 per acre for cash and \$30.00 on time. Apply Mrs. Henry Smith.

The management of the Rex theatre are going to have the floor raised. This will be a splendid improvement.

Mr. Wilkie of Lethbridge was in town to day looking over the life insurance situation prior to opening an agency in Raymond.

The second ward grand opening has been postponed from last night to next Tuesday night and every body is invited.

Next Sunday is the annual Ward Conference of Sunday School in both wards at ten o'clock in the morning. There will be talks from the Stake Superintendent and demonstrations from different classes of Sunday School.

Kenneth Gordon is back after an absence of some weeks, he accumulated more experience than money while away.

The first "feet" of the season of amusements "primarily" was the dance given in the opera house by the Bachelor Girls. An excellent crowd was assembled, showing the genuine good taste of the girls. If boys were only gifted with such good taste the Bachelor Girls soon would be home keepers. Sometimes the boys have the good tastes but they lack the other requirements, such as automobiles, airships and millions, which the modern bachelor girl simply finds the bare necessities of life. However one enjoyed the hospitality of the young ladies immensely.

Mrs. Lillian Fawkes, graduate Chatsanga School of Nursing, Olafstad Nursing a Specialty.

Mrs. Emma Russell of Brazz is in town this week visiting her parents Mr. and Mrs. N. A. Anderson.

Mr. and Mrs. Paul Cluff who have been living in Tillie for the past six months, returned to Raymond last Saturday evening.

Thanks-giving Day Program.

Next Monday is the day set apart by the Premier as Thanks-giving Day and will be fittingly celebrated in Raymond by the second Ward Primary who have the entertainment of the town-people in hand. There will be a grand character ball for children in the afternoon. Those under 12 years old will have free agency in the opera house from 2 P. M. to 5:30 P. M. then those between the ages of 12 to 16 years will hold the springs down from 5:30 to 9 P. M. From 9 P. M. until 12 P. M. the older society of Raymond will assemble in one of our celebrated "halls". Every body come but don't overload your stomachs at dinner because it is too hard to keep awake and dance if you do.

MARSHALL MAKES ARRESTS

Last Saturday night some of the young "blooms" of the town had been "taking" some of the liquid importations from Lethbridge and about one thirty A. M. Monday morning the marshal rounded three or four of them up and locked them up in the jail. Here the boys made their mistake. They broke the windows in the jail and lighted some powder inside which neatly smothered them, then they broke the stove and other things breakable. They were all arrayed before justice Alfred, three of them plead guilty to the charge of being intoxicated and were fined \$5.00 each. Mr. Willard Lund plead not guilty and the court adjourned till he could gather his wits. At the reconvening of court a verdict of innocent was handed down after the hearing of several witnesses.

Knight Sugar Factory Starts Run

Full Complement of Men Available

The tenth annual run at the factory started yesterday morning at day light. Although there were the usual obstacles to over come in the starting, the factory is now running to its full capacity.

The Raymond sugar factory is the only one of its kind in western Canada, it is an industry in its infancy, you might say with its main development in the future but it has demonstrated beyond a doubt that Alberta can at all times put her land into sugar beets and make splendid profits.

The C. S. has a payroll of upwards of \$1000 during the run and this money is kept right here at home, it goes among the people and gives them a little ready cash to lay against the coming winter.

During the "run" at the factory about three hundred men are employed and the factory is running when other work is not to be had.

This sugar industry is a benefit to the Town Province and country and we hope they have a successful run this year.

What We Are Doing At The K. A.

The students now attending the Academy number over fifty which is at least twenty more than there were at this time last year.

On Monday evening Miss. Bessie Spencer arrived from Salt Lake to give the course in Kindergarten which has been provided by the General Sunday School Board. The Taylor stake feel especially favored in having the Board provide this course for them and they are doing all in their power to make the most of this opportunity. The Bishops of the several wards have selected people to take the work but the course is open to any others who may desire to do so provided those selected are not numerous enough to make a mixed class. Some of the wards have not responded to the call and the course will be held in the Academy at Ogden also in the Brigham Young Academy at Logan. She is a graduate of the Brigham Young University at Provo, so in every sense of the word, she comes fully prepared to give to the Taylor Stake something that they should be eager to learn.

Miss Spencer has been in charge of the course at the Academy at Ogden also in the Brigham Young Academy at Logan.

Hurrah! for the Domestic Science Girls.

Everyone who read the menu of the Founder Day dinner, printed in the Leader last week, had a hungry feeling come over them but that feeling certainly developed a lot today at 12 o'clock when a large crowd was gathered outside the kitchen door outside the kitchen door at the Acad. only waiting for the word to come.

My that was an assortment, who couldn't be satisfied, and everything cooked to perfection. It would take a more learned man than the writer of this article to eulogize intelligently on the splendid viands prepared by the domestic science girls and give the names and description of each but suffice it to say it didn't matter what you chose, you couldn't get anything something that was good for the body soul and spirit.

The dinner was served cafeteria style and you chose what you wanted and payed for what you took. Things were served in a prompt orderly manner showing evidence of much good training. Much credit is due Miss Tilly Walton for the quiet business like manner every thing was transacted.

From a financial stand point they did very well as everything was sold. Of course little profit was made, and little was expected. The object was to show to the townpeople what is being accomplished in the Knight Acad. every in this line. The object was accomplished with interest.

Don't forget the grand opening of the Young Men's Association next Tuesday night in the second Ward.

MISS LOCKWOOD OF WINNIPEG

AKES pleasure in announcing the giving of a series of Free Lessons in ART NEEDLEWORK, to be given in the Second Ward Meeting House, Raymond, Womans Institute Rooms on the first floor, from nine in the morning until five in the afternoon, starting Wednesday October 18th, nineteen hundred and thirteen, and extending until October 28th.

The lessons will be conducted by Miss Lockwood, who is a particularly proficient embroiderer having had a large experience in this work.

Materials in their latest novelties can be procured from Miss Lockwood for taking lessons on.

You and other ladies will be cordially welcomed as one of the number to join these classes, and we trust that you will avail yourself of the opportunity and that the benefit of the instruction you will receive will be of value.

The above invitation has been sent to all of the ladies of Raymond and a nice class has assembled to learn the many intricacies of fancy work in silk. Miss Lockwood has already been in Raymond some years ago, on the same business and at that time many were benefited materially by her teachings. The ladies who have attended very highly of her work.

Ward Conference Of Relief Society.

Yesterday at ten o'clock in the first Ward meeting house the members of the relief society met in conference. There were visitors from Magrath consisting of Mrs. Mercer who is Stake President and Mrs. Anderson.

Mrs. Ray Knight gave a splendid talk on "Attitude to meetings", and the benefits derived there from. Mrs. Snow sang a song and Mrs. Alfred played an organ solo. There were also business talks by the visiting sisters and several of the local officers.

In the second Ward at two o'clock a much larger crowd assembled owing to the time being more convenient for the ladies. Mrs. M. Y. Coxall delivered an address on "Fitting" and several other very good numbers were rendered. The matter of storing their grain was discussed and it has been decided to sell the grain here and send the money to Bp. Nibley, and he will buy more grain and store it in other elevators especially built for this purpose.

All of the ladies present enjoyed the conference very much. Everything was strictly business and there was no time for gossip. Das war ganz gut.

At the Rex last Tuesday and Wednesday nights Prof. Hassel delivered a splendid lecture on Prison Life and illustrated with moving pictures. It was educating as well as entertaining.

The long awaited diamond ring drawing takes place at the Rex theatre to-morrow night and all coupons that have been issued will be put into a hat for this drawing. The holder of the Drawn number must be present.

Last night the Founders Day ball was given in the Academy Gym. The hall was artistically decorated in purple and gold. Grape lemonade punch was served in the small room adjoining which was ablaze with purple and gold streamers and pennants. A large cardboard punch bowl foaming with the purple juice was posted over entrance way with punch glasses on which hands were pointing out the way attracted all comers and seemed to be advertised sufficient for there was no punch left for the cooks. The Domestic Science department are certainly deserving of credit for the splendid preparation and serving of the refreshment.

The Grand Opening of the Young Men's Mutual of the first Ward last Tuesday night was a huge success. There was a splendid program rendered consisting of songs, readings and humorous numbers it was the first attraction, and then came the lively games and folk dancing peculiar to a Mormon community, with an occasional round dance just as a change. Every one enjoyed them selves immensely and the grand opening in the second ward will likely be patronized to the overflowing of the hall.

MOTHERS PRAISE BABY'S OWN TABLETS.

Every mother who has once used Baby's Own Tablets readily admits that there is no other medicine to equal them. They are a never failing cure of all stomach and bowel complaints and many a precious little babe owes health and even life itself to their use. Concerning the Tablets write: Mrs. Fred Dew, Broadview, Sask., writes: "I have used Baby's Own Tablets for my little girl and have found them of such great benefit. I would not be without them. They are truly a wonderful remedy for little ones." The Tablets can be obtained from medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

the possibility of a man's eyes changing color as the result of a mental shock or physical ill treatment was the subject of an interesting discussion recently by a number of surgeons in the eye ward of one of the great London hospitals.

Eyes May Change Color

One of the surgeons stated: "It is common knowledge that great physical hardships may suddenly turn the hair white. The loss of color here follows on certain chemical changes due to disturbance of nutrition, taking place in the tiny particles of color matter which give the hair its color."

"All infants at birth have blue eyes in some shades. Immediately after birth infants are brought to the light, and the eyes remain blue or grey throughout life."
